

EEN UNIEK BEELD IN DE HAVEN VAN MAASSLUIS (NL)

A unique picture from last week of the mooring facilities of Sima Charters in the port of Maassluis, with three of the (own) fleet vessels moored. Mostly all vessels of the fleet are usually underway with several of them also on projects far abroad giving the pontoon an empty look .

Temporarily chartered by Sima can be seen the former pilot vessel Zeezwaluw, with moored alongside brand new SC Elan just arrived from it's builders and made ready for the first job to be starting this week.

SC Support and SC Amethyst seen in the far end and ready to leave on short notice.
