T31EU Kanton Isl –update

Our preparations are on schedule. The team is very grateful for the great sponsoring from the ham community.

The antenna material is stored in Tarawa at Chuck Corbett. The PIPA Kanton Coordinator, Tuake Teema, confirmed that our two generators were in excellent condition and we have two drums (400 liters) fuel available on the island.

All our equipment is successfully checked and suitcases are packed. We have again a total of 250kg radio equipment!

In four weeks our team flies from Frankfurt via Brisbane to Tarawa. After a short stay in Tarawa we will fly on Feb. 16th with a small charter plane (Beechcraft King Air 200) to Kanton. There we are guests of the village community.

The team members are in a good spirit and looking optimistically forward to a successful DXpedition.

E6ET Niue DXpedition 2019 –update by Alex 5B4ALX

In a few months E6ET will be active from Niue, the plans are almost completed and only the general test of the station is missing.

Almost 80kg of material is packed and this involves a much higher expense than expected in terms of additional baggage on the 6 2-way flights.

For this reason I hope in your kind help in order to cover the last shipping costs that is over 4000 USD. www.5b4alx.cloud/e6et-donors/

French mail fees 2019

Starting from January, the main French mail fees have been increased, so for QSL direct, be aware that 1 USD is not enough for the return card.
